

Anastasiia Gulak /asya_wg / 22/12/1984

one thought of mine	ukrainian born architect , activist , contemporary free artist The infinite number of opportunities offered by the profession of the architect gives an impetus to be realized in completely different directions. The self- development of each person depends on his degree of freedom, on his own "boundaries". I do not build boundaries in front of me and do not impose my freedom on others, each has its own - freedom and architecture.
